Dear Douglas,

I am writing to you to follow up on letters I have sent to both contenders to become Conservative Party leader and, in turn, the next Prime Minister of the United Kingdom. In those letters, attached, I ask that they commit to an immediate energy price freeze as a matter of national emergency given the levels of damage that the projected rises in prices will bring for men, women and children across the UK.

I have also tabled a motion in the Scottish Parliament demanding that the UK Government freeze energy prices now and that all Scottish politicians campaign for such a freeze.

It is my genuine view that the levels of damage and hardship caused will be unprecedented in recent times if these charges are allowed to rise at the levels being predicted and will result in widespread poverty and civil unrest.

I am hoping that you will support the call for a freeze now and not hide behind your Westminster colleagues. I urge you to put Scotland and its people first at this time of great hardship for so many.

Yours sincerely,

Alex Rowley MSP
